PROFESSIONAL SUMMARY

Passionate Full Stack .Net Developer with 2+ years of experience in building web applications using .NET CORE, .NET MVC, .NET Framework, C#, JavaScript, Microsoft SQL Server. Proven ability to deliver scalable and efficient software solutions in fast-paced environments. Currently expanding expertise by learning Azure and React to strengthen cloud integration and front-end development skills.

TECHNICAL SKILLS

- **Frontend Development:** JavaScript, HTML, CSS, jQuery, Bootstrap, AJAX, React
- **Backend Development:** .NET Core, .NET Framework, C#, Web API
- **Database Management:** Microsoft SQL
- **IDEs & Build Tools:** Visual Studio, Microsoft SQL Server Management Studio, Postman, Swagger.
- **Cloud:** Azure

PROFESSIONAL EXPERIENCE

APTONLINE LIMITED (TCS) – DOTNET FULLSTACK DEVELOPER

August 2023 - Present

1. ASSET MANAGEMENT SYSTEM (AMS) – Telangana IT Department

Technologies Used: .NET 7.0, C#, JavaScript, jQuery, AJAX, HTML, CSS, Microsoft SQL Server

A web-based platform developed for the Telangana IT Department to streamline the complete lifecycle of IT assets, including requisition, registration, tagging, and disposal. The system enables authenticated workflows between Sections and Superintendents, ensuring transparency and operational efficiency in asset management.

Key Contributions:

- Developed core modules such as Asset Requisition, Inventory Management, Employee Enrollment, Asset Tagging, and Disposal.
- Implemented role-based access control and workflow automation for asset approvals and tracking.
- Integrated database operations for asset data management using Microsoft SQL Server.
- Designed and optimized dynamic front-end interfaces with validation and responsive design.
- Collaborated with cross-functional teams to ensure smooth deployment and adherence to IT department standards.
- Successfully developed an intuitive asset management platform that automated key workflows and streamlined asset tracking, reducing manual effort, enhancing operational transparency, and significantly improving overall productivity.

2. Telangana Digital Governance Platform

Technologies Used: .NET 6.0, C#, JavaScript, Microsoft SQL Server, AJAX, jQuery

A digital governance platform developed to enhance service delivery in Telangana by centralizing key departmental services, enabling seamless data management, visualization, and interaction across government departments. It provides a unified visual dashboard for the IT Minister and team, ensuring real-time monitoring, data-driven insights, and improved transparency and efficiency in governance.

Key Contributions:

- Implemented dynamic data visualizations using libraries such as AmCharts, HighCharts, ApexCharts, and ECharts to present complex data insights effectively.
- Utilized AJAX for asynchronous data retrieval, ensuring real-time updates without disrupting the user interface.
- Designed and implemented REST APIs using C#, .NET Core, and .NET MVC frameworks to handle data operations and business logic.
- Enhanced the platform's data visualization capabilities by integrating advanced charting libraries, facilitating better analysis and decision-making.

3. Teachers Transfers - 2024 (Intermediate Education, Govt. of Telangana)

Technologies Used: C#, .NET Framework, JavaScript, HTML, CSS, AJAX, jQuery, MS SQL Server.

A digital transfer management system developed for the Intermediate Education Department, Government of Telangana, to streamline and digitize the lecturers' transfer process. The system enables lecturers to securely log in, verify their details, and select preferred transfer locations through a web options module, ensuring complete transparency and reducing manual intervention.

Key Contributions:

- Implemented dynamic vacancy listing with real-time selection and confirmation functionality through JavaScript and jQuery.
- Designed front-end pages using HTML, CSS, and JavaScript to ensure a user-friendly experience for lecturers across devices.
- Integrated backend logic in C# for data validation, acknowledgment, and transfer confirmation workflows.

EDUCATION

VAAGDEVI ENGINEERING COLLEGE, WARANGAL
Bachelor of Technology in Computer Science and Engineering
CGPA: 8.01
Year of Pass: 2023

CERTIFICATIONS:

1. Machine Learning with ML.NET Link: ML.NET Issued by: LinkedIn Date: February, 2025	2. Introducing ASP.NET Core Link: ASP.NET Core Issued by: LinkedIn Date: May, 2024	3. Foundational C# with Microsoft Link: Microsoft C# Issued by: Microsoft & fCC Date: July, 2024
